

Ragnar Relay 6-Pack™

Frequently Asked Questions (FAQ)

- Q: How come there is an additional cost for 6-Pack teams? Why is it more expensive than Ultra registration?**
A: There are some administrative expenses on our end on matching teams, and making sure they are taken care of. Also, 6-Packs are only asked to provide 2 volunteers rather than 3, so we need to pay for that third volunteer.
- Q: What if we get paired with a team and they cancel or transfer?**
A: We try and avoid this by making sure 6-Pack teams know there are no refunds or transfers once they are paired. If an injury or some unforeseen issues causes a paired team to withdraw, you will be paired again with the next available 6-Pack team.
- Q: Will 6-Pack be offered at all races from now on?**
A: We are test piloting the 6-pack option to see how valuable it is to our runners. This year, there are four races that will offer it (Napa Valley, Colorado, Washington, D.C. and Las Vegas). If we decide to expand beyond those races, we will email everyone and let them know before Regular Registration ends.
- Q: What are the refund/transfer rules of being a 6-Pack team?**
A: It is difficult to manage and creates problems for the other van if teams make changes after they are paired. For this reason, there are no refunds or transfers once you are paired with another team.
- Q: Can each van get its medals separately?**
A: It is up to the Captain to coordinate with the Asst. Captain to disseminate the medals.
- Q: Do we get to choose whether our team is Van 1 or Van 2?**
A: At the time of registration you are able to note your van preference. While not guaranteed, we do our best to honor requests.
- Q: Can we request a team with a similar overall pace or those requesting similar start times? What about gender preference?**
A: As this is the introductory pilot of the 6-pack offering, we currently do not have the capability of fulfilling such requests. We do our best to make logical pairings but expect teams to be mixed gender.

Q: How long will it take to be paired after we register as a 6-Pack?

A: Pairings will be made as soon as a complimentary 6-Pack team is available.

Q: How do you decide who the Captain is?

A: The overall team Captain is determined by the van. Once paired, Van 1's Captain will become the overall team Captain and Van 2's Captain will become the overall team Asst. Captain. Also at that point, both teams will inherit Van 1's team name and be given a new team number.

Q: Once paired can I change the team name, division?

A: If paired before the name/division change deadlines, the Captain (Van 1) may change the overall team name and division.
