

Job Title: UX Designer
Department: Marketing
Reports to: Technical Product Manager

FLSA status: Exempt
Classification: Full-Time
Supervises: None

Ragnar exists to make life more awesome. We are a group of active people who seek to work with individuals who work hard and play hard and have a deep desire to be successful. Ragnar is a Utah-based company with a national footprint, we are a premier series of overnight road and trail running relay adventures. Occasional physical labor and working some race weekends is a requirement.

We offer a great benefits package including 75% paid health care premiums, 401K & match, open PTO policy, one free Ragnar team registration per year with travel and much more.

Position Summary: As a UX Designer you will lead the design and user experience of all Ragnar technical products including: website, mobile app, ecommerce site, and registration system. You will be responsible for strategically thinking through all stages of the design process and executing with great attention to detail. You'll work hand-in-hand with developers, product managers, and executive stakeholders to create a simple user experiences across mobile and web products that our runners enjoy and improves the customer journey.

Essential functions and responsibilities:

- Translate user needs and product requirements into usable web interfaces
- Create wireframes and prototypes
- Ensure a consistent user experience across all Ragnar products
- Take a data-driven approach to influence your visual and interaction design decisions
- Collaborate with internal stakeholders, product managers, and developers throughout the entire product lifecycle
- Help lead user research and A/B testing

Qualifications:

- Bachelor's degree or higher required
- 2-3 years of UX Design experience
- A passion for user-centered design and innovation
- Experience creating wireframes, mockups, and prototypes using Sketch, Invision, and Adobe Creative Suite
- Experience with Usability testing
- Understanding of user research and usability testing techniques
- Working knowledge of front-end technologies including: HTML, CSS, Javascript and Bootstrap
- Experience with Angular or REST services and JSON a plus
- Experience designing mobile and responsive products
- Ability to work independently, as well as on teams, in an agile environment
- Experience establishing and maintaining style guides

Physical demands and work environment: The physical demands and work environment characteristics described here are representative of those that must be met by an employee to successfully perform the essential functions of this job.

Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

- Physical demands: While performing duties of job, incumbent is occasionally required to stand; walk; sit; use hands to finger, handle, or feel objects, tools, or controls; reach with hands and arms; talk and hear. Employee must occasionally lift and/or move up to 50 pounds. Specific vision abilities required by the job include close vision, distance vision, color vision, peripheral vision, depth perception, and the ability to adjust focus.
